EXPERIENCE

participated in microsoft imagine cup

Role- Team lead

Tracking the Overstock & Understock Dilemma

Achievements/Tasks

- Developed a prototype : <https://adorable-capybara-d5f2ae.netlify.app/>
- Participated in Microsoft Imagine Cup as a Team Lead, working on a solution to address overstock and understock management challenges. Led the team in brainstorming, planning, and structuring the project while contributing to the development of the prototype. Gained hands-on experience in problem-solving, team coordination, and building real-world solutions.

pariticaped in National CyberShield Hackathon General

Role- Research & Development

Achievements/Tasks

- Contributed as a Research & Development team member in the National CyberShield Hackathon. Conducted research on cybersecurity concepts and assisted in designing a solution for the given problem statement. Collaborated with team members to develop ideas, structure the approach, and improve the overall solution. Enhanced skills in analytical thinking, teamwork, and real-world problem-solving.

PROJECTS

Portfolio

- <https://glittering-moonbeam-635b95.netlify.app/>
- Tech Stack:** HTML, Tailwind CSS, JavaScript
- Developed a personal portfolio website to showcase projects, skills, and achievements using HTML, Tailwind CSS, and JavaScript. Focused on clean design, performance, and accessibility while applying modern front-end development practices.

kidlearn

- <https://beamish-blini-c13e10.netlify.app/>
- Tech Stack:** HTML, CSS
- Developed a kids learning dashboard with a focus on intuitive UI/UX design using HTML, CSS. Improved user experience through structured layouts and visually engaging components, enhancing front-end development and design skills.
